	Task List	**The task/s details**	**Notes**
1	- Progress Check on Database	The team reviewed the ClassConnect database progress and confirmed that each member successfully resolved the pending issues in their assigned tables. All relationships, foreign keys, and data structures were validated against the updated design. The group ensured that the database now supports all required features smoothly, with no major errors remaining.	
2	- Update the design of layout and color on our system.	Members worked on improving the ClassConnect system interface by updating the layout structure and refining the color scheme. The goal was to make the system cleaner, more consistent, and easier for users to navigate. Adjustments were made to buttons, page layouts, and visual elements to achieve a more polished and user-friendly design.	

| 3 | - Integrate Modules | The team discussed and planned the integration of all ClassConnect modules to ensure they function together as one complete system. This includes connecting student management, announcements, and other related functions. Members identified which modules depend on each other and prepared for upcoming integration testing to verify smooth data flow across the entire system. | |
